Introduction and Scope

Hailey Hall School recognises that internet, mobile and digital technologies provide a good opportunity for children and young people to learn, socialise and play, provided they are safe. The digital world is an amazing place, but with few rules. It is vast and fast-moving, and young people's future economic success may be partly dependent on their online skills and reputation. We are, therefore, committed to ensuring that **all** pupils, staff and trustees will be able to use internet, mobile and digital technologies safely. This is part of our safeguarding responsibility. Staff are aware that some pupils may require additional support or teaching, including reminders, prompts and further explanation to reinforce their knowledge and understanding of online safety issues.

We are also committed to ensuring that all those who work with children and young people, including their parents/carers, are informed about the ever-changing risks so that they can take an active part in the safeguarding of children.

The policy applies to all employees, pupils, trustees, parents/carers, volunteers and visitors.

1. Aims

Our school aims to:

- › Have robust processes in place to ensure the online safety of pupils, staff, volunteers and the board of trustees.
- › Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- › Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- › **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism.
- › **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
- › **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- › **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- › [Teaching online safety in schools](#)
- › [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)
- › [Relationships and sex education](#)
- › [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyberbullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The Board of Trustees

The board of trustees has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The board of trustees will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The board of trustees will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The board of trustees will coordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The board of trustees should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The board of trustees must ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks and will regularly review their effectiveness. The board will review the DfE filtering and monitoring standards, and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems;
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

The trustees who oversee online safety are [Leah Matcham and Rosemary Bolton].

All trustees will:

- › Ensure they have read and understand this policy.
- › Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 2)
- › Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school approach to safeguarding and related policies and/or procedures
- › Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable.

3.2 The headteacher

The headteacher is responsible for ensuring that staff understand this policy and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy as well as relevant job descriptions.

The Online Safety co-ordinator (Mr Aldiss DDSL) takes lead responsibility for online safety in school along with the DSL (Miss Sharp), in particular:

- › Supporting the headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school.
- › Working with the headteacher and board of trustees to review this policy annually and ensure the procedures and implementation are updated and reviewed regularly
- › Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- › Working with the ICT manager to make sure the appropriate systems and processes are in place
- › Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents.
- › Managing all online safety issues and incidents in line with the school's child protection policy
- › Ensuring that any online safety incidents are logged (see appendix 4) and dealt with appropriately in line with this policy.

- › Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy.
- › Updating and delivering staff training on online safety (appendix 3 contains a self-audit for staff on online safety training needs)
- › Liaising with other agencies and/or external services if necessary
- › Providing regular reports on online safety in school to the headteacher and/or board of trustees
- › Undertaking annual risk assessments that consider and reflect the risks children face
- › Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

3.4 The ICT Support

The ICT Support is responsible for:

- › Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems, which are reviewed and updated on a regular basis to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material.
- › Ensuring that the school's ICT systems are secure and protected against viruses and malware and that such safety mechanisms are updated regularly.
- › Conducting a full security check and monitoring the school's ICT systems on a monthly basis
- › Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
- › Ensuring that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy.
- › Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy.

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors, agency staff, and volunteers are responsible for:

- › Maintaining an understanding of this policy
- › Implementing this policy consistently
- › Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and ensuring that pupils follow the school's terms on acceptable use (appendices 1 and 2)
- › Working with the Online Safety Officer and DSL to ensure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy.
- › Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy.
- › Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline and maintaining an attitude of 'it could happen here'.

This list is not intended to be exhaustive.

3.6 Parents / Carers

Parents / Carers are expected to:

- › Notify a member of staff or the headteacher of any concerns or queries regarding this policy.

- › Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents / Carers can seek further guidance on keeping children safe online from the following organisations and websites:

- › What are the issues? – [UK Safer Internet Centre](#)
- › Hot topics – [Childnet International](#)
- › Parent resource sheet – [Childnet International](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum:

The text below is taken from the [National Curriculum computing programmes of study](#).

It is also taken from the [guidance on relationships education, relationships and sex education \(RSE\) and health education](#).

All schools have to teach:

- › [Relationships and sex education and health education](#) in secondary schools

In **Key Stage 3**, pupils will be taught to:

- › Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy.
- › Recognise inappropriate content, contact and conduct, and know how to report concerns.

Pupils in **Key Stage 4** will be taught:

- › To understand how changes in technology affect safety, including new ways to protect their online privacy and identity.
- › How to report a range of concerns

By the **end of secondary school**, pupils will know:

- › Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online.
- › About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online.
- › Not to provide material to others that they would not want shared further and not to share personal material which is sent to them.
- › What to do and where to get support to report material or manage issues online
- › The impact of viewing harmful content
- › That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners.
- › That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail.
- › How information and data is generated, collected, shared and used online
- › How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours

- › How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online).

The safe use of social media and the internet will also be covered in other subjects where relevant.

5. Educating parents about online safety

The school will raise parents' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

The school will let parents know:

- › What systems the school uses to filter and monitor online use
- › What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher, ESafety Co-ordinator and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyberbullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying.

To help prevent cyberbullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyberbullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Form Tutors will discuss cyberbullying with their tutor groups.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, board of trustees and volunteers (where appropriate) receive training on cyberbullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information/leaflets on cyberbullying to parents so that they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyberbullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The ESafety Co-ordinator and DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining Electronic Devices.

The headteacher and any member of staff authorised to do so by the headteacher including the deputy headteacher in the headteacher's absence, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- › Poses a risk to staff or pupils, and/or
- › Is identified in the school rules as a banned item for which a search can be carried out, and/or

- › Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- › Make an assessment of how urgent the search is and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from [the headteacher / ESafety Co-Ordinator / DSL / appropriate staff member]
- › Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it.
- › Seek the pupil's cooperation.

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- › Cause harm, and/or
- › Undermine the safe environment of the school or disrupt teaching, and/or
- › Commit an offence.

If inappropriate material is found on the device, it is up to DSL / headteacher / ESafety Co-Ordinator / other member of the senior leadership team to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- › They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- › The pupil and/or the parent refuses to delete the material themselves.

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- › **Not** view the image
- › Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- › The DfE's latest guidance on [searching, screening and confiscation](#)
- › UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- › Our behaviour policy/searches and confiscation policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard.

Hailey Hall School recognises that AI has many uses to help pupils learn but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or

video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Hailey Hall School will treat any use of AI to bully pupils in line with our behaviour policy.

Staff should be aware of the risks of using AI tools whilst they are still being developed and should carry out a risk assessment where new AI tools are being used by the school.

7. Acceptable use of the Internet in school

All pupils, parents, staff, volunteers and the board of trustees are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the Internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, board of trustees and visitors (where relevant) to ensure they comply with the above.

More information is set out in the acceptable use agreements in appendices 1 to 3.

8. Pupils using mobile devices in school

Pupils are allowed to bring personal mobile devices/phones to school but must hand them into staff on entry to school. Under no circumstances should pupils use their personal mobile devices/phones to take any form of recording of:

- any other pupil unless they and their parents/carers have given agreement in advance.
- any member of staff

The school is not responsible for the loss, damage or theft on school premises of any personal mobile device.

Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device.

Any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see appendices 1 and 2).

Any breach of the acceptable use agreement by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device.

9. Staff using work devices outside of school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device.
- Make sure the device locks if left inactive for a period of time.
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software
- Keeping operating systems up to date by always installing the latest updates

Staff members must not use the device in any way which would violate the school's terms of acceptable use, as set out in Appendix 3.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from ICT Support

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and ICT and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures/staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails and staff meetings).

By way of this training, all staff will be made aware that:

- › Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse.
- › Children can abuse their peers online through:
 - Abusive, harassing, and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content.
- › Physical abuse, sexual violence and initiation/hazing-type violence can all contain an online element.

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse.
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks.
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term.

The ESafety Co-ordinator, DSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

The board of trustees will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

The ESafety Co-ordinator and DSL oversees the recording of linked behaviour and safeguarding issues related to online safety. The schools process of logging these concerns can be found in Appendix 5.

This policy will be reviewed every year by the ESafety Co-ordinator. At every review, the policy will be shared with the Board of Trustees.

13. Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour policy
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints procedure
- ICT and Internet acceptable use policy
- Code of conduct policy

Appendix 1: KS3 and KS4 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS

Name of pupil:

I will read and follow the rules in the acceptable use agreement policy.

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

- Always use the school's ICT systems and the internet responsibly and for educational purposes only
- Only use them when a teacher is present, or with a teacher's permission.
- Keep my usernames and passwords safe and not share these with others.
- Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer.
- Tell a teacher (or sensible adult) immediately if I find any material which might upset, distress or harm me or others.
- Always log off or shut down a computer when I've finished working on it.

I will not:

- Access any inappropriate websites including social networking sites, chat rooms and gaming sites unless my teacher has expressly allowed this as part of a learning activity.
- Open any attachments in emails, or follow any links in emails, without first checking with a teacher.
- Use any inappropriate language when communicating online, including in emails.
- Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate.
- Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision.
- Use school IT equipment for unrelated school purposes.
- Download or install software on school IT equipment.
- Log on to the school network, other school systems and resources, using my own school username and password.
- Log in to the school's network using someone else's details.
- I will not reveal my passwords to anyone other than a parent/carer.
- I will not use my personal email address or other personal accounts on school IT equipment.

I understand that:

- I will make sure that all my electronic communications are responsible and sensible.
- That everything I search for, access, post or receive online, can be traced now and in the future. My activity can be monitored and logged and, if necessary, shared with teachers, parents/carers and the police if necessary. I know it is essential that I build a good online reputation.
- I will not browse, download, upload or forward, material that could be considered offensive or illegal. If I accidentally come across any such material, I will report it immediately to a member of staff if I am in school, or parent/carer if I am not in school.
- I will not give out my own or others' personal information, including name, phone number, home address, interests, schools or clubs or any personal image. I will report immediately any request for personal information, to a member of staff if I am in school or parent/carer if I am not in school.
- I should never post photographs, videos or livestream without the permission of all parties involved.
- I will not upload any images, videos, sounds or words that could upset, now or in the future, any member of the school community, as this is cyberbullying.

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS

- I will be respectful to everyone online; I will treat everyone the way that I want to be treated. I will ensure that all my online activity, both in and outside school, will not cause distress to anyone in the school community, or bring the school into disrepute.
- I will not respond to hurtful behaviour online but will report it. I have the right to block and will say no to any inappropriate or upsetting request.
- I will respect the privacy and ownership of others' work online and will adhere to copyright at all times.
- I will not attempt to bypass the internet filtering system in school.
- I will not assume that new technologies can be brought into school and will check with staff before bringing in any device. I will not lie about my age in order to sign up for age-inappropriate games, apps or social networks.
- I understand that not everything I see or hear online is true, accurate or genuine. I also know that some people on the internet are not who they say they are and may have ulterior motives for assuming another identity that will put me at risk. I will gain permission from parents/carers before arranging to meet someone I only know on the internet.

If I bring a personal mobile phone or other personal electronic device into school:

- I will hand in all electronic devices on entry to school.
- In School transport, I will use it responsibly and will not access any inappropriate websites or other inappropriate material or use inappropriate language when communicating online.
- I understand that if I fail to hand over electronic devices on entry to school this may result in the confiscation of the device/s which will require the parent carer to collect.

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carers' agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of the school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carers):

Date:

Appendix 2: acceptable use agreement (staff, board of trustees, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, BOARD OF TRUSTEES, VOLUNTEERS AND VISITORS

Name of staff member/board of trustee/volunteer/visitor:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way which could harm the school's reputation.
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services.
- Install any unauthorised software or connect unauthorised hardware or devices to the school's network.
- Share my password with others or log in to the school's network using someone else's details.
- Take photographs of pupils without checking with teachers first
- Share confidential information about the school, its pupils or staff, or other members of the community.
- Access, modify or share data I'm not authorised to access, modify or share.
- Promote private businesses, unless that business is directly related to the school.
- Use any form of removable storage to connect and transfer resources/files

- I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.
- I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.
- I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.
- I will let the ESafety Co-ordinator, designated safeguarding lead (DSL) and ICT manager know if a pupil informs me that they have found any material which might upset, distress or harm them or others, and will also do so if I encounter any such material.
- I will always use the school's ICT systems and internet responsibly and ensure that pupils in my care do so too.
- I will ensure that my online activity, both in and outside school, will not bring the school, my professional reputation, or that of others, into disrepute.
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory. Exceptionally, use of controversial material as part of the curriculum should be planned and approved on every occasion (see policy)
- I understand that it is my responsibility to ensure that any personal devices that access school systems and files have sufficient security measures in place and are kept current.

Social networking

I understand the need to separate my professional role from my private friendships; in my professional capacity, I will not become 'friends' with parents/carers or pupils on social networks. Where my school role is my only connection to an individual, private online contact is unacceptable with parents/carers or pupils.

It is also understood that contact with former pupils through social media is not permitted given consideration that ex-pupils are still designated as 'vulnerable' young people up to the age of 25.

Information can be shared with pupils over 13 and parents/carers through an organisational social network site/page e.g. on Facebook or Twitter, but never through a personal account or site. In my professional role in the school, I will never engage in 1-1 exchanges with pupils or parent/carers on personal social network sites.

My private account postings will never undermine or disparage the school, its staff, trustees, parents/carers, or pupils. Privileged information known as a result of my work in the school must remain confidential.

I will not upload any material about or references to the school or its community on my personal social networks.

Passwords

I must clarify what access I may have to the internet and/or school systems. If I have access of any kind, I understand that there is no occasion when a password should be shared with a pupil, or anyone who is not a staff member. I will change temporary passwords at first logon and change passwords whenever there is any indication of possible system or password compromise. I will not record passwords or encryption keys on paper or in an unprotected file.

Data protection

I will follow all requirements for data protection explained to me by the school. These include:

- I must consult with the school before making any recordings, photographs and videos. Once agreed, these must be made on a school device.
- I understand that there are strict controls and requirements regarding the collection and use of personal data. I will follow all requirements regarding GDPR.

Images and videos

I will only upload images or videos of staff, pupils or parents/carers onto school-approved sites where specific permission has been granted.

I will not take images, sound recordings or videos of tuition or wider school activities on any personal device. School devices can be used for this purpose or, in the case of 1:1 tuition, pupil's or parent/carer devices can be used, with parent/carer agreement.

Internet, mobile and digital technologies provide helpful recording functions, but these cannot be made on a teacher's personal device. Recordings can be made with the child's and parent/carer's agreement on a school device, an organisational device approved by the Headteacher / DSL, or a young person's or parent/carer's own device.

Use of Email

I will use my professional or formal pupil email address for all school business. All such correspondence should be kept professional and is open to Subject Access Requests under the Freedom of Information Act. I will not use my professional email addresses for personal matters.

Use of personal devices

I understand that when working in the school I should at no time put myself in a position where a safeguarding allegation can be made against me as a result of my use of personal devices. I understand that the use of personal devices in school is at the discretion of the Headteacher.

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, BOARD OF TRUSTEES, VOLUNTEERS AND VISITORS

I will only use approved personal devices in designated areas and never in front of pupils. This therefore precludes use of specialist apps on personal devices. A school device could be used to access specialist apps that support pupil learning. Pupils can also be encouraged, but not required, to access such apps on their own devices if allowed by the school and with parent/carer agreement.

Additional hardware/software

I will not install any hardware or software on school equipment without permission of the Data Protection Officer (Judicium Education) and/or the Deputy Data Protection Officer (Mr Aldiss DDSL).

Promoting online safety

I understand that online safety is part of my responsibility, and I will promote positive online safety messages at all times, including when setting homework, rehearsal or skill practice, or when providing pastoral support.

I understand that it is my duty to support a whole school safeguarding approach and will report any behaviour (of staff, trustees, visitors, pupils or parents/carers) which I believe may be inappropriate, or concerning in any way, to the DSL and Mr Aldiss DDSL.

Classroom management of Internet access

I will pre-check for appropriateness all internet sites used in the classroom; this will include the acceptability of other material visible, however briefly, on the site. I will not free surf the internet in front of pupils.

If I am using the internet to teach about controversial issues I will secure, on every occasion, approval in advance for the material I plan to use with the DSL and Mr Aldiss DDSL.

Signed (staff member/board of trustee/volunteer/visitor):

Appendix 3: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, board of trustees and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyberbullying?	
Are there any areas of online safety in which you would like training/further training?	

Appendix 4: online safety incident report log

All eSafety-related incidents are brought to the attention of **Mr Aldiss DDSL** and **Miss Sharp DSL** to be investigated/actioned and are logged in CPOMS in the eSafety log section.
