

SEMH OUTREACH

Aim and Purpose:

- Enable pupils with an EHCP to succeed and remain in mainstream setting through inclusive, SEMH-informed support.

What we can offer:

- Experienced teachers delivering practical, evidence-based strategies grounded in real lessons.
- Early intervention to support emerging SEMH needs.
- Advice tailored to each school's and pupil's realities—realistic, sustainable, and inclusive.
- Model, coach, co-plan, and share resources with staff to identify strengths, reduce barriers, and tailor regulation and behaviour support.
- Develop staff confidence via reflective practice, environmental adaptations, relationship-based strategies, and proactive frameworks.
- Work directly with pupils.

What we cannot do:

- We are not able to determine if a specialist setting would be more suitable. Our aim is to support SEND learners in a mainstream environment.
- We are not a last resort solution, we aim to be early intervention to avoid the risk of permanent exclusion.
